News from the Nest

Week of Sept 6-10

WELCOME back to our scholars who have been home over the past days/weeks. We are so excited to have our Eagles back in the Nest and look forward to acclimating them back to campus protocols. We know that this transition may not be easy and we are looking to partner with you, parents, to help us to ease the return to campus for our scholars. Please speak with your scholar about how they feel as they return to school; ask questions like "what was your favorite part of being back at school?" or "who did you enjoy seeing the most?" Try to engage in encouraging conversation around their return to school so we can collectively get our scholars comfortable with being at school once again.

Did you ever hear "carrots are good for your eyes"? I remember hearing that and while there are many fruits, vegetables, and proteins that help improve eyesight naturally it is still equally important to get regular vision screenings. Next week, our scholars will have the opportunity to have their vision screened, thanks to Nurse Katy in conjunction with the Sumter area Lions Club. Vision impairments can interfere with scholars' learning and LSC wants to remain diligent in doing our part to ensure the success of our scholars. If you would like for your scholar to receive a vision screening, please return a signed consent form to your scholar's homeroom teacher (forms are being sent in their N.E.S.T. binders).

Here are some updates, reminders, and things to note for the coming week and beyond...

- In addition to the previously shared programs being offered by the Sumter Public Library, they are also offering book walks to local schools. Beginning tomorrow, Thursday 9/9, our scholars will have the opportunity to enjoy a book walk provided by the Sumter Public Library. The book walk is an engaging, interactive way for scholars to explore literacy. We will host the book walk for two weeks allowing all scholars an opportunity to enjoy it during Enrichment and Recess times.
